Mr. Henline caught quite a fall by walking into an open side walk south of the Opera house but was not seriously injured. The walk had been torn up during the afternoon to be replaced by a cement walk, and Mr. Henline failed to notice that there was nothing but open space to walk on.

A large audience enjoyed greatly the Easter services at the Presbyterian church last Sunday morning. Mrs. Dr. Hellwarth played the Offertory on the piano accompanied by Chalk Beeson with the violin. Mrs. Will Gardner sang a very effective solo, and the choir rendered a splendid anthem. Rev. M. G. Frank of Columbus, Kansas, preached an eloquent sermon. It was a delightful service throughout. Rev. Frank preached in the evening again to a good audience. The church was tastefully decorated for the day.

Mrs. J. D. Allison, who advertises full blooded Barred Plymouth Rock eggs for sale elsewhere in this issue, found a freak in the way of an egg one evening last week. This egg measured nine inches in circumference one way, and seven inches the other way, and on breaking the outer shell, discovered the white and yolk of an egg, also a full sized egg which had the usual hard shell on it. Mrs. Allison does not guarantee though, that chickens hatched from eggs bought from her will all lay that kind of eggs.

The Rev. Wm. Westwood, former pastor of the Presbyterian church of this place, at present vice-president of the Emporia college will remain in Dodge City over Sunday and will preach both morning and evening at the Presbyterian church. Rev. Westwood put in a number of years in charge of the Presbyterian church of this city and was very popular alike with his own people and the public at large, and they will be glad of the opportunity of hearing him once again speak from the pulpit.

The A. B. girls were entertained by Mrs. Lillian O'Neill on Saturday the 14, which was Lily day. The Misses Lulu Sturm, Helen Jastatt and Sallie Hardesty were present as guests. The rooms were filled with the fragrance of the Easter Lilies and together with the pure white decorations and the charming girls in their dainty gowns, the scene was a bright and happy one. The refreshments were also in white, the eggs being served in a regular nest of hay. Miss De Ette Reighard will be the hostess on April the 28, on which day the Poppy will be the honored flower.

Prof. Popenoe calls attention to the fact, in connection with the discovery of serious ravages by the San Jose scale at Dodge City, that Kansas is one of a very few states that is without a law for the inspection and quarantine of nursery stock. The introduction of the scale in Dodge City he thinks is due to this absence of quarantine regulations. The attention of the state should be called to Prof. Popenoe's statement that there is danger that without such regulations Kansas may become a dumping ground for infected nursery stock and young trees. The fruit industry will need careful protection from now on.—Topeka Capital.

HAD KNOWLEDGE OF MEDICINE.

Comprehensive Treatise Written by Egyptian 7,000 Years Ago.

A roll of papyrus acquired by Dr. Ebers, in the vicinity of Thebes, Egypt, in the winter of 1872, from an Arab who made ancient grave robbing a business, after investigation and translation was deposited in the library of the University of Leipzig. The script of this papyrus is hieratic; the date of it is said to be over 7,000 years ago. It is a comprehensive treatise on medicine. Diseases of the abdomen, the chest, the heart, the eyes, the ears and so on are carefully arranged and described in a manner that would command respect at the present day. For instance, of the heart, the papyrus classifies the troubles as fatty degeneration, dilation, carditis, angina or spasm, hypertrophy (enlargement), thrombosis (plugging) and dropsy. Of medicines over seven hundred different substances are enumerated and they are prescribed in pills, in tablets, in capsules, in decoctions, powders, inhalations, lotions, ointments, plasters.
